www.electrotrans.es

Since 25 years we produce parts for different companies for a wide range of sectors and countries, according to customer's requirement.

We are specialized at brass machining and belong to IdB Group that produces brass ingots and bars, so we can offer very competitive prices.

If you need a partner with experience, quality, adaptation and delivery time guarantee, Electrotrans SA is your solution.

We have a Technical Office that attends our customers in English, German, French, Italian or Spanish.

The precision machines produce high volume parts from 7mm Ø to 65mm Ø.
